Irish Life health

Schedule of Benefits for Professional Fees 2020

Cardiology

ABL	ABLATION					
CODE	DESCRIPTION	PRE-APPROVAL REQUIRED	PAYMENT INDICATORS	PAYMENT RULES		
936311	For the treatment of patients with a history of congenital heart anomalies; intracardiac EP studies (code 5502) with catheter ablation of ventricular arrhythmia or ectopic focus/ foci	No				
938407	Intracardiac electrophysiology studies with catheter ablation of arrhythmogenic left atrial focus/ foci for treatment of atrial fibrillation; linear or focal ablation, including pulmonary vein isolation (includes transseptal catheterisation) (I.P.)	No	Independent Procedure	Procedure codes 5961, 5024 and 5029 may not be claimed in conjunction with procedure code 5502.		
946541	Creation of complete heart block by intracardiac catheter ablation of atrioventricular node function, +/- temporary pacemaker	No				

ANG	ANGIOGRAM					
CODE	DESCRIPTION	PRE-APPROVAL REQUIRED	PAYMENT INDICATORS	PAYMENT RULES		
5058	Cardiac catheterisation and coronary angiography with or without ventriculography with fractional flow reserve (FFR) intracoronary pressure measurements	No	Diagnostic, Day Care	Not Claimable with Code 5080 or 5090, or with Angioplasty or Coronary stenting.		
5080	Cardiac catheterisation (left, right or both sides) (I.P.)	No	Independent Procedure, Diagnostic, Day Care	Not Claimable with Code 5080 or 5090, or with Angioplasty or Coronary stenting.		
5090	Cardiac catheterisation and coronary angiography with or without ventriculography	No	Diagnostic, Day Care	Not Claimable with Code 5080 or 5090, or with Angioplasty or Coronary stenting.		
5200	Transeptal left heart catheterisation (I.P.)	No	Independent Procedure			

ANGIOPLASTY

/						
CODE	DESCRIPTION	PRE-APPROVAL REQUIRED	PAYMENT INDICATORS	PAYMENT RULES		
5101	Coronary angioplasty, single or multiple vessel(s), with or without angiography with or without pacing	No				
938408	Elective coronary angioplasty, single or multiple vessel(s), with or without angiography with or without pacing	No		Procedure codes 938410 and 5090 are not claimable with each other.		

CARDIAC TESTING

CODE	DESCRIPTION	PRE-APPROVAL REQUIRED	PAYMENT INDICATORS	PAYMENT RULES
5021	Major consultant consultation including tilt table testing, alone or in combination with the administration of provocative agents (e.g. Isoproterenol), with continuous ECG monitoring and intermittent blood pressure monitoring for the evaluation of cardiac function in patients with recurrent unexplained neurocardiogenic syncope who have an inconclusive history and physical examination, as well as negative non-invasive tests of cardiac structure and function (not payable for any other indication except as stated above)	No	Side Room	

CAF	CARDIAC TESTING				
CODE	DESCRIPTION	PRE-APPROVAL REQUIRED	PAYMENT INDICATORS	PAYMENT RULES	
5022	Cardiovascular stress test with pharmaceutical/ chemical agent(s) includes IV administration, echocardiography, ECG with consultant Cardiologist in constant attendance	No			

\sim	וחח	\sim	EDCI	
	RUN		'ERSI	
		\sim v		

CODE	DESCRIPTION	PRE-APPROVAL REQUIRED	PAYMENT INDICATORS	PAYMENT RULES		
5091	Cardioversion	No	Day Care			
93099	Combination cardioversion (code 5091) and TOE (code 5109) (see codes for full description)	No	Day Care	Codes 5108 or 5008 are not payable in addition to this code Rules as set out in codes 5091 and 5109 will continue to apply		

ECHOCARDIOGRAPHY

CODE	DESCRIPTION	PRE-APPROVAL REQUIRED	PAYMENT INDICATORS	PAYMENT RULES
5008	Cardiac ultrasound, (echocardiography) for patients on cytotoxic chemotherapy	No	Diagnostic, Out- patient	 (a) 5108 or 5008 is not payable in addition to 5109 (b) 5109 is not claimable when performed intraoperatively
5108	Cardiac ultrasound, (echocardiography)	No	Diagnostic	Where code 5108 is performed on an out-patient basis the professional fee will be direct settled As this is an out-patient only procedure there should NOT be a technical fee. Any technical fee incurred is only recoverable as an out-patient radiology expense subject to policy benefits (a) 5108 or 5008 is not payable in addition to 5109 (b) 5109 is not claimable when performed intraoperatively
5109	Echocardiography, transoesophageal, real-time with image documentation (2D) (with or without M-mode recording), including probe placement, image acquisition, interpretation and report	No	Diagnostic	 (a) 5108 or 5008 is not payable in addition to 5109 (b) 5109 is not claimable when performed intraoperatively (c) When this test is performed 4 hours or more prior to surgery, then it is claimable in addition to the surgery

ELECTROPHYSIOLOGIC STUDIES

CODE	DESCRIPTION	PRE-APPROVAL REQUIRED	PAYMENT INDICATORS	PAYMENT RULES
5079	Biventricular pacing - insertion of pacing electrode, cardiac venous system, for left ventricular pacing, at time of insertion of pacing cardioverter-defibrillator or pacemaker pulse generator (including upgrade to dual chamber system)	No		Payable in full when carried out with 5028, 5071,5072, 5073, 5074, 5076, 5077, 5201 and 5202
5502	Comprehensive electrophysiological evaluation with right atrial pacing and recording, right ventricular pacing and recording, HIS bundle recording, including insertion and repositioning of multiple electrode catheters.	No	Day Care	
5960	Intracardiac catheter ablation of atrioventricular node function, atrioventricular conduction for creation of complete heart block, with or without temporary pacemaker placement	No		
5961	Intracardiac catheter ablation of arrhythmogenic focus for treatment of supraventricular or ventricular tachycardia by ablation of fast or slow atrioventricular pathways, accessory atrioventricular connections or other atrial foci, (including foci pulmonary vein) single or in combination	No		

PAC	PACEMAKERS						
CODE	DESCRIPTION	PRE-APPROVAL REQUIRED	PAYMENT INDICATORS	PAYMENT RULES			
5053	Subcutaneous implantation of a patient-activated cardiac event loop recorder with memory, activator and programmer, including electronic analysis of implantable loop recorder system (ILR), (includes retrieval of recorded and stored ECG data)	No	Side Room				
5054	Removal of implantable, patient-activated cardiac event loop recorder (where the original implantation met the conditions of payment)	No	Side Room	Maximum once every 7 years, stimulator or modulator or battery replacement performed within that period will not be payable			
5063	Removal of single or dual chamber pacing cardioverter/ defibrillator electrode(s); by transvenous extraction	No					
5065	Insertion or replacement of temporary transvenous single chamber cardiac electrode or pacemaker catheter	No					
5071	Insertion or replacement of permanent pacemaker with transvenous electrode(s); single chamber	No		Includes repositioning or replacement in the first 14 days after the insertion (or replacement) of the device			
5072	Insertion or replacement of permanent pacemaker with transvenous electrode(s); dual chamber	No		Includes repositioning or replacement in the first 14 days after the insertion (or replacement) of the device			
5073	Insertion or replacement of pacemaker pulse generator only; single chamber atrial or ventricular	No		Includes repositioning or replacement in the first 14 days after the insertion (or replacement) of the device			
5074	Insertion or replacement of pacemaker pulse generator only (includes defibrillator pulse generator); dual chamber	No		Includes repositioning or replacement in the first 14 days after the insertion (or replacement) of the device			
5076	Insertion, replacement or repositioning of permanent transvenous electrode(s) only (15 days or more after initial insertion); single chamber	No					
5077	Insertion, replacement or repositioning of permanent transvenous electrode(s) only (15 days or more after initial insertion); dual chamber	No					
938400	Insertion or repositioning of permanent transvenous cardiac electrode(s) and lead(s) - 15 days or more after initial insertion	No					
938401	Extraction of transvenous permanent pacemaker electrode – single lead – 15 days or more after initial insertion	No		Prosthesis benefit is only payable where this procedure is performed during same theatre session as procedure code 5001 (i.e. insertion of new electrode).			
938402	Extraction of transvenous permanent pacemaker electrodes, multiple leads	No		Prosthesis benefit is only payable where this procedure is performed during same theatre session as procedure code 5001 (i.e. insertion of new electrode).			
938404	Insertion of automatic implantable cardioverter/ defibrillator, single chamber	No					
938405	Insertion of automatic implantable cardioverter/ defibrillator, dual chamber	No					
938406	Insertion of automatic implantable cardioverter/ defibrillator, biventricular	No					

PAE	PAEDIATRIC CARDIOLOGY				
CODE	DESCRIPTION	PRE-APPROVAL REQUIRED	PAYMENT INDICATORS	PAYMENT RULES	
5034	Major consultation and trans-thoracic echocardiography, initial assessment of an infant or child under 16 with suspected heart disease, for the diagnosis or exclusion of complex congenital or acquired cardiac anomalies or where a detailed follow up examination is indicated. Also for adults with congenital heart disease assessed by a consultant Paediatric Cardiologist	No	Diagnostic, Side Room	Benefit includes pre-operative or post-operative assessment, or in the follow up of critical or severe heart disease including detailed segmental analysis assessment of visceral situs, 2D M-mode, Doppler (PW,CW and colour flow), assessment of myocardial function, pressure gradients, regurgitation including image acquisition, interpretation and report	

PAE	PAEDIATRIC CARDIOLOGY					
CODE	DESCRIPTION	PRE-APPROVAL REQUIRED	PAYMENT INDICATORS	PAYMENT RULES		
5036	Trans-thoracic echocardiography for congenital or acquired cardiac anomalies in children under 16; limited study for patients where the cardiac anatomy is known (e.g. follow up of valve stenosis) or in the evaluation or follow up of patients with predominantly non-cardiac problems (e.g. pre or post cancer chemotherapy, severe renal disease, overwhelming sepsis), where the assessment of myocardial and valvular function or exclusion of pericardial effusion is required	No	Diagnostic, Side Room			
5037	Trans-thoracic echocardiography, initial assessment of an infant or child, for the diagnosis or exclusion of complex congenital or acquired cardiac anomalies or where a detailed follow up examination is indicated. Also for adults with congenital heart disease assessed by a consultant Paediatric Cardiologist	No	Diagnostic, Side Room	Benefit includes pre-operative or post-operative assessment, or in the follow up of critical or severe heart disease including detailed segmental analysis assessment of visceral situs, 2D M-mode, Doppler (PW,CW and colour flow), assessment of myocardial function, pressure gradients, regurgitation including image acquisition, interpretation and report		
5089	Trans-oesophageal echocardiography for congenital cardiac anomalies in children under 16 years of age; including probe placement, image acquisition, interpretation and report	No	Diagnostic, Side Room			
5093	Paediatric cardiac catheterisation (left, right or both sides)	No	Diagnostic			
5094	Paediatric cardiac catheterisation and cardiac angiography combined	No	Diagnostic			
5132	Foetal echocardiography for the diagnosis or exclusion of cardiac anomalies in the foetus, including detailed segmental analysis, assessment of visceral situs (2D), M -mode, Doppler (PW & colour flow), assessment of myocardial function, regurgitation – including image acquisition, interpretation and report	No	Diagnostic, Side Room			

PTC	PTCA						
CODE	DESCRIPTION	PRE-APPROVAL REQUIRED	PAYMENT INDICATORS	PAYMENT RULES			
5103	Transcatheter placement of intracoronary stent(s) (other than drug eluting stents), percutaneous, with or without other therapeutic intervention, with or without angiography, any method, single vessel	No					
5111	Transcatheter placement of intracoronary stents (other than drug eluting stents), percutaneous, with or without other therapeutic intervention, with or without angiography, any method, more than one vessel	No					
5115	Percutaneous transcatheter closure of congenital interatrial communication (i.e. Fontan fenestration, atrial septal defect) with implant, including right heart catheterisation	No	Day Care	Procedure codes 5115 and 5119 include right heart catheterisation			
5116	Transcatheter placement of drug eluting stent(s), percutaneous, with or without other therapeutic intervention, with or without angiography, any method, single vessel	No					
5117	Transcatheter placement of drug eluting stents, percutaneous, with or without other therapeutic intervention, with or without angiography, any method, more than one vessel	No					
5119	Percutaneous transcatheter closure of congenital ventricular septal defect with implant including right heart catheterisation	No		Procedure codes 5115 and 5119 include right heart catheterisation			
938409	Placement of drug eluting intracoronary stent(s), any method, single vessel - elective	No		Procedure codes 938408 and 5090 are not claimable with each other.			
938410	Placement of drug eluting intracoronary stents, any method, more than one vessel - elective	No		Procedure codes 938408 and 5090 are not claimable with each other.			
938411	Placement of non-drug eluting intracoronary stent(s), any method, more than one vessel - elective	No					

TAVI						
CODE	DESCRIPTION	PRE-APPROVAL REQUIRED	PAYMENT INDICATORS	PAYMENT RULES		
5133	Transcatheter aortic valve implantation (TAVI) for aortic stenosis (Edwards Sapien) (I.P.)	Yes		For patients with aortic stenosis for whom surgical aortic valve replacement is considered unsuitable Clinicians wishing to undertake TAVI for aortic stenosis in patients who are at high risk for surgical valve replacement should ensure that patients understand the risk of stroke and death, and the uncertainty about the procedure's efficacy in the long term. Provide them with clear written information In addition evidence of patient selection should be carried out by a multidisciplinary team including interventional cardiologists, cardiac surgeons, a cardiac anaesthetist and an expert in cardiac imaging The multidisciplinary team should determine the risk level of each patient and must be named in the request for approval. TAVI may only be performed only by clinicians and teams with special training and experience in cardiovascular interventions and in units undertaking which have both cardiac and vascular surgical support for emergency treatment of complications Such facilities must request approval from Irish Life Health for inclusion on the Irish Life Health list of such facilities
