

Code	Procedure
5101	Coronary angioplasty, single or multiple vessel(s), with or without angiography with or without pacing (hospital benefits apply for a maximum stay of one night only)
5103	Transcatheter placement of an intracoronary stent (other than drug eluting stents), percutaneous, with or without other therapeutic intervention, with or without angiography, any method, single vessel (hospital benefits apply for a maximum stay of one night only)
5111	Transcatheter placement of intracoronary stents, percutaneous, with or without other therapeutic intervention, with or without angiography, any method, more than one vessel (hospital benefits apply for a maximum stay of one night only)
5116	Transcatheter placement of a drug eluting stent, percutaneous, with or without other therapeutic intervention, with or without angiography, any method, single vessel (hospital benefits apply for a maximum stay of one night only)
5117	Transcatheter placement of drug eluting stents, percutaneous, with or without other therapeutic intervention, with or without angiography, any method, more than one vessel (hospital benefits apply for a maximum stay of one night only)
5011	Coronary angioplasty, single or multiple vessel(s), with or without angiography with or without pacing (hospital benefits apply for a maximum stay of one night only)
5012	Transcatheter placement of an intracoronary stent (other than drug eluting stents), percutaneous, with or without other therapeutic intervention, with or without angiography, any method, single vessel (hospital benefits apply for a maximum stay of one night only)
5013	Transcatheter placement of intracoronary stents, percutaneous, with or without other therapeutic intervention, with or without angiography, any method, more than one vessel (hospital benefits apply for a maximum stay of one night only)
5016	Transcatheter placement of a drug eluting stent, percutaneous, with or without other therapeutic intervention, with or without angiography, any method, single vessel (hospital benefits apply for a maximum stay of one night only)
5017	Transcatheter placement of drug eluting stents, percutaneous, with or without other therapeutic intervention, with or without angiography, any method, more than one vessel (hospital benefits apply for a maximum stay of one night only)
5502	Comprehensive electrophysiologic evaluation with right atrial pacing and recording, right ventricular pacing and recording, HIS bundle recording, including insertion and repositioning of multiple electrode catheters.
5960	Intracardiac catheter ablation of atrioventricular node function, atrioventricular conduction for creation of complete heart block, with or without temporary pacemaker placement
5961	Intracardiac catheter ablation of arrhythmogenic focus for treatment of supraventricular or ventricular tachycardia by ablation of fast or slow atrio-ventricular pathways, accessory atrioventricular connections or other atrial foci, (including foci pulmonary vein) singly or in combination.
5014	Percutaneous transcatheter closure of congenital interatrial communication (i.e. Fontan fenestration, atrial septal defect) with implant, including right heart catheterisation.. DAY CASE
5069	Insertion of automatic implantable cardioverter/ defibrillator.
5071	Insertion or replacement of permanent pacemaker with transvenous electrode(s); single chamber ...
5072	Insertion or replacement of permanent pacemaker with transvenous electrode(s); dual chamber..
5074	Insertion or replacement of pacemaker pulse generator only (includes defibrillator pulse generator); dual chamber
5076	Insertion, replacement or repositioning of permanent transvenous electrode(s) only (15 days or more after initial insertion); single chamber.
5077	Insertion, replacement or repositioning of permanent transvenous electrode(s) only (15 days or more after initial insertion); dual chamber.
5058	Cardiac catheterisation and coronary angiography with or without ventriculography with fractional flow reserve (FFR) intracoronary pressure measurements
5073	Insertion or replacement of pacemaker pulse generator only; single chamber atrial or ventricular (see note)
5119	Percutaneous transcatheter closure of a congenital ventricular septal defect with implant (see note)
