

List of Cardiac ProceduresBlackrock Clinic

This list is subject to change and some procedures may have clinical indications, conditions of payment and/or payment indicators attached to them. Please call us on 01 562 5100 to confirm if a procedure is covered or subject to an excess or a co-payment on your plan before going to hospital.

Code	Procedure
5101	Coronary angioplasty, single or multiple vessel(s) with or without angiography, with or without pacing
5115	Percutaneous transcatheter closure of congenital interatrial communication (i.e. Fontan fenestration, atrial septal defect) with implant, including right heart catheterisation
5119	Percutaneous transcatheter closure of congenital ventricular septal defect with implant including right heart catheterisation
5502	Comprehensive electrophysiological evaluation with right atrial pacing and recording, right ventricular pacing and recording, HIS bundle recording, including insertion and repositioning of multiple electrode catheters.
5103	Transcatheter placement of intracoronary stent(s) (other than drug eluting stents), percutaneous, with or without other therapeutic intervention, with or without angiography, any method, single vessel
5111	Transcatheter placement of intracoronary stents (other than drug eluting stents), percutaneous, with or without other therapeutic intervention, with or without angiography, any method, more than one vessel
5116	Transcatheter placement of drug eluting stent(s), percutaneous, with or without other therapeutic intervention, with or without angiography, any method, single vessel
5117	Transcatheter placement of drug eluting stents, percutaneous, with or without other therapeutic intervention, with or without angiography, any method, more than one vessel
5071	Insertion or replacement of permanent pacemaker with transvenous electrode(s); single chamber
5072	Insertion or replacement of permanent pacemaker with transvenous electrode(s); dual chamber
5073	Insertion or replacement of pacemaker pulse generator only; single chamber atrial or ventricular
5074	Insertion or replacement of pacemaker pulse generator only (includes defibrillator pulse generator); dual chamber
5079	Biventricular pacing - insertion of pacing electrode, cardiac venous system, for left ventricular pacing, at time of insertion of pacing cardioverter-defibrillator or pacemaker pulse generator (including upgrade to dual chamber system)
938401	Extraction of transvenous permanent pacemaker electrode - single lead
938402	Extraction of transvenous permanent pacemaker electrodes, multiple leads
938404	Insertion of automatic implantable cardioverter/ defibrillator, single chamber
938405	Insertion of automatic implantable cardioverter/ defibrillator, dual chamber
938406	Insertion of automatic implantable cardioverter/ defibrillator, biventricular
938407	Intracardiac electrophysiology studies with catheter ablation of arrhythmogenic left atrial focus/ foci for treatment of atrial fibrillation; linear or focal ablation, including pulmonary vein isolation (includes transseptal catheterisation) (I.P.)
5960	Intracardiac catheter ablation of atrioventricular node function, atrioventricular conduction for creation of complete heart block, with or without temporary pacemaker placement
5961	Intracardiac catheter ablation of arrhythmogenic focus for treatment of supraventricular or ventricular tachycardia by ablation of fast or slow atrioventricular pathways, accessory atrioventricular connections or other atrial foci, (including foci pulmonary vein) single or in combination
5033	Thoracoscopic epicardial radiofrequency ablation; operative tissue ablation with or without reconstruction of atria (e.g. modified maze procedure) without cardiopulmonary bypass

Aortic endarterectomy Blabck operation Insertion or replacement of temporary transvenous single chamber cardiac electrode or pacemaker catheter Insertion, replacement or repositioning of permanent transvenous electrode(s) only, single chamber Insertion, replacement or repositioning of permanent transvenous electrode(s) only, single chamber Insertion, replacement or repositioning of permanent transvenous electrode(s) only, single chamber Insertion, replacement or repositioning of permanent transvenous electrode(s) only, single chamber Insertion, replacement or repositioning of permanent transvenous electrode(s) only, single chamber Insertion, replacement or repositioning of permanent transvenous electrode(s) only, single chamber Insertion, replacement or repositioning of permanent transvenous electrode(s) only, single chamber Insertion, replacement or repositioning of permanent transvenous electrode(s) only, single chamber Insertion, replacement or repositioning of permanent transvenous electrode(s) only, single chamber Insertion, replacement or repositioning of permanent transvenous electrode(s) only, single chamber Insertion, replacement or repositioning of permanent transvenous electrode(s) only, single chamber Insertion, replacement or reposition and	Code	Procedure
Cardiac catheterisation and coronary angiography, with or without ventriculography, with fractional flow reserve (FFR) intracoronary pressure measurements Removal of single or dual chamber pacing cardioverter/ defibrillator electrode(s); by transvenous extraction Insertion or replacement of temporary transvenous single chamber cardiac electrode or pacemaker catheter Blalock operation Insertion, replacement or repositioning of permanent transvenous electrode(s) only; single chamber Echocardiography, transcessophageal, real-time with image documentation (2D) (with or without M-mode recording), including probe placement, image acquisition, interpretation and report Echocardiography, transcessophageal, real-time with image documentation (2D) (with or without M-mode recording), including probe placement, image acquisition, interpretation and report Ecksion of mediastinal tumour, includes robotic approach Mediastinoscopy, without biopsy (I, P.) Ascending aoria graft, with cardiopulmonary bypass, with aortic root replacement and coronary reconstruction Transverse arch graft, with cardiopulmonary bypass, with or without bypass, with or without coverage of left subclavian artery origin, plus descending thoracic aortic origin extension(s), if required to level of coeliac origin Repair of thoraccobdominal aortic aneurysm with graft, with or without cardiopulmonary bypass Paral see Gode 195133 Operative ablation of atrial fibrillation, supraventricular arrhythmogenic focus or pathway (e.g., Wolff-Parkinson-White, atrioventricular node re-entry), tract(s) and/or population or interrupted aortic archivating autogenous or prosthetic material; without cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, coronary reconstruction, vith cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, coronary reconstruction, with cardiopulmonary bypass Ascending aorta graft, with or without v	5053	
measurements Removal of single or dual chamber pacing cardioverter/ defibrillator electrode(s); by transvenous extraction Insertion or replacement of temporary transvenous single chamber cardiac electrode or pacemaker catheter Bialock operation Insertion, replacement or repositioning of permanent transvenous electrode(s) only, single chamber Insertion, replacement or repositioning of permanent transvenous electrode(s) only, single chamber Insertion, replacement or repositioning of permanent transvenous electrode(s) only, single chamber Echocardiography, transpesophageal, real-time with image documentation (2D) (with or without M-mode recording), including probe placement, image acquisition, interpretation and report Excision of mediastinal tumour, includes robotic approach Mediastinoscopy, without biopsy (LP) Ascending aorts graft, with cardiopulmonary bypass, with aortic root replacement and coronary reconstruction Transverse arch graft, with cardiopulmonary bypass, with aortic root replacement and coronary reconstruction Transverse arch graft, with cardiopulmonary bypass, with or without toverage of left subclavian antery origin, plus descending thoracic aortic origin extension(s), if required to level of coeliac origin Repair of thoracoabdominal aortic aneurysm with graft, with or without cardiopulmonary bypass Transcatheter Aortic Valve Implantation (TAVI) for aortic stenosis - Edwards Sapien approach (LP). Please note different reimbursement rates for Allegra TAVI - see Code 935133 Operative ablation of atrial fibrillation, supraventricular arrhythmogenic focus or pathway (e.g. Wolff-Parkinson-White, atrioventricular node re-entry), tract(s) and/ or focus (foci with or without cardiopulmonary bypass Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, coronary reconstruction, with card	5055	Aortic endarterectomy
Insertion or replacement of temporary transvenous single chamber cardiac electrode or pacemaker catheter Blalock operation Blalock operation Blalock operation Insertion, replacement or repositioning of permanent transvenous electrode(s) only; single chamber Insertion, replacement or repositioning of permanent transvenous electrode(s) only; dual chamber Echocardiography, transoesophageal, real-time with image documentation (2D) (with or without M-mode recording), including probe placement, image acquisition, interpretation and report Excision of mediastinal tumour, includes robotic approach Mediastinoscopy, without biopsy (I.P.) Ascending aorta graft, with cardiopulmonary bypasss Transverse arch graft, with cardiopulmonary bypasss Escending thoracic aorta graft, open or endovascular, with or without bypass, with or without coverage of left subclavian artery origin, plus descending thoracic aortic origin extension(s), if required to level of coeliac origin Repair of thoracoabdominal aortic aneurysm with graft, with or without cardiopulmonary bypass Transcatheter Aortic Valve Implantation (TAVI) for aortic stenosis - Edwards Sapien approach (I.P.) Please note different reimbursement rates for Allegra TAVI - see Code 935133 Operative ablation/inclsion and/or reconstruction of atria for treatment of atrial fibrillation or flutter (e.g. maze procedure) Mediastinoscopy and biopsy Operative ablation of atrial fibrillation, supraventricular arrhythmogenic focus or pathway (e.g. Wolff-Parkinson-White, atrioventricular node re-entry), tract(s) and/or focus (foci) with or without cardiopulmonary bypass Papair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; without cardiopulmonary bypass Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; without cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, coronary reconstruction, with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension,	5058	
Balaback operation insertion, replacement or repositioning of permanent transvenous electrode(s) only; single chamber insertion, replacement or repositioning of permanent transvenous electrode(s) only; dual chamber Echocardiography, transoesophageal, real-time with image documentation (2D) (with or without M-mode recording), including probe placement, image acquisition, interpretation and report Echocardiography, transoesophageal, real-time with image documentation (2D) (with or without M-mode recording), including probe placement, image acquisition, interpretation and report Excision of mediastinal tumour, includes robotic approach Mediastinoscopy, without biopsy (I.P.) Ascending aorta graft, with cardiopulmonary bypasss Descending thoracic aorta graft, open or endovascular, with or without bypass, with or without coverage of left subclavian artery origin, plus descending thoracic aortic origin extension(s), if required to level of coeliac origin Repair of thoracoabdominal aortic aneurysm with graft, with or without cardiopulmonary bypass Transcatheter Aortic Valve implantation (TAVI) for aortic stenosis - Edwards Sapien approach (I.P.) Please note different reimbursement rates for Allegra TAVI - see Code 935133 Operative ablation/incision and/or reconstruction of atria for treatment of atrial fibrillation or flutter (e.g., maze procedure) Mediastinoscopy and biopsy Operative ablation of atrial fibrillation, supraventricular arrhythmogenic focus or pathway (e.g. Wolff-Parkinson-White, atrioventricular node re-entry), tract(s) and/or focus (foci) with or without cardiopulmonary bypass Pepair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; without cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, oronary reconstruction, with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, coronary reconstruction, with cardiopulmonary	5063	Removal of single or dual chamber pacing cardioverter/ defibrillator electrode(s); by transvenous extraction
Insertion, replacement or repositioning of permanent transvenous electrode(s) only; single chamber Insertion, replacement or repositioning of permanent transvenous electrode(s) only; dual chamber Echocardiography, transoesophageal, real-time with image documentation (2D) (with or without M-mode recording), including probe placement, image acquisition, interpretation and report Echocardiography, transoesophageal, real-time with image documentation (2D) (with or without M-mode recording), including probe placement, image acquisition, interpretation and report Excision of mediastinal tumour, includes robotic approach Mediastinoscopy, without biopsy (I.P.) Ascending aorta graft, with cardiopulmonary bypass, with aortic root replacement and coronary reconstruction Transverse arch graft, with cardiopulmonary bypass, with aortic root replacement and coronary reconstruction Transverse arch graft, with cardiopulmonary bypass Descending thoracic aorta graft, open or endovascular, with or without bypass, with or without coverage of left subclavian artery origin, plus descending thoracic aortic origin extension(s), if required to level of coeliac origin Repair of thoracoabdominal aortic aneurysm with graft, with or without cardiopulmonary bypass Transcatheter Aortic Valve implantation (TAVI) for aortic stenosis - Edwards Sapien approach (I.P.) Please note different reimbursement rates for Allegra TAVI - see Code 935133 Operative ablation/incision and/or reconstruction of atria for treatment of atrial fibrillation or flutter (e.g. maze procedure) Mediastinoscopy and biopsy Operative ablation of atrial fibrillation, supraventricular arrhythmogenic focus or pathway (e.g. Wolff-Parkinson-White, atrioventricular node re-entry), tract(s) and/or focus (foci) with or without cardiopulmonary bypass Operative ablation of atrial fibrillation, supraventricular arrhythmogenic focus or pathway (e.g. Wolff-Parkinson-White, atrioventricular node re-entry), tract(s) and/or focus (foci) with or without valve suspension, with	5065	Insertion or replacement of temporary transvenous single chamber cardiac electrode or pacemaker catheter
insertion, replacement or repositioning of permanent transvenous electrode(s) only; dual chamber Echocardiography, transoesophageal, real-time with image documentation (2D) (with or without M-mode recording), including probe placement, image acquisition, interpretation and report Excision of mediastinal tumour, includes robotic approach Mediastinoscopy, without biopsy (I.P.) Ascending aorta graft, with cardiopulmonary bypass, with aortic root replacement and coronary reconstruction Transverse arch graft, with cardiopulmonary bypass, with or without bypass, with or without coverage of left subclavian artery origin, plus descending thoracic aortic origin extension(s), if required to level of coeliac origin Repair of thoraccabdominal aortic aneurysm with graft, with or without cardiopulmonary bypass Transcatheter Aortic Valve Implantation (TAVI) for aortic stenosis - Edwards Sapien approach (I.P.) Please note different reimbursement rates for Allegra TAVI - see Code 935133 Operative ablation/incision and/or reconstruction of atria for treatment of atrial fibrillation or flutter (e.g. maze procedure) Mediastinoscopy and biopsy Operative ablation of atrial fibrillation, supraventricular arrhythmogenic focus or pathway (e.g. Wolff-Parkinson-White, atrioventricular node re-entry), tract(s) and/or focus (foci) with or without cardiopulmonary bypass Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; without cardiopulmonary bypass Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; without cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, coronary reconstruction, with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, coronary reconstruction, with cardiopulmonary bypass Percutaneous trans-septal mitral valvuloplasty (I.P.) Valvuloplasty (other than mitral valvuloplasty)	5075	Blalock operation
Echocardiography, transpessophageal, real-time with image documentation (2D) (with or without M-mode recording), including probe placement, image acquisition, interpretation and report Excision of mediastinal tumour, includes robotic approach Mediastinoscopy, without biopsy (LP.) Ascending aorta graft, with cardiopulmonary bypass, with aortic root replacement and coronary reconstruction Transverse arch graft, with cardiopulmonary bypass Descending thoracic aorta graft, open or endovascular, with or without bypass, with or without coverage of left subclavian artery origin, plus descending thoracic aortic origin extension(s), if required to level of coeliac origin Repair of thoracoabdominal aortic aneurysm with graft, with or without cardiopulmonary bypass Transcatheter Aortic Valve Implantation (TAVI) for aortic stenosis - Edwards Saplen approach (LP.) Please note different reimbursement rates for Allegra TAVI - see Code 935133 Operative ablation/incision and/or reconstruction of atria for treatment of atrial fibrillation or flutter (e.g. maze procedure) Mediastinoscopy and biopsy Operative ablation of atrial fibrillation, supraventricular arrhythmogenic focus or pathway (e.g. Wolff-Parkinson-White, atrioventricular node re-entry), tract(s) and/or focus (loci) with or without cardiopulmonary bypass Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; without cardiopulmonary bypass Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, coronary reconstruction, with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, coronary reconstruction, with cardiopulmonary bypass Percutaneous trans-septal mitral valvuloplasty)	5076	Insertion, replacement or repositioning of permanent transvenous electrode(s) only; single chamber
Excision of mediastinal tumour, includes robotic approach Mediastinoscopy, without biopsy (I.P.) Ascending aorta graft, with cardiopulmonary bypass, with aortic root replacement and coronary reconstruction Transverse arch graft, with cardiopulmonary bypass, with aortic root replacement and coronary reconstruction Transverse arch graft, with cardiopulmonary bypass Descending thoracic aorta graft, open or endovascular, with or without bypass, with or without coverage of left subclavian artery origin, plus descending thoracic aortic origin extension(s), if required to level of coeliac origin Repair of thoracoabdominal aortic aneurysm with graft, with or without cardiopulmonary bypass Transcatheter Aortic Valve Implantation (TAVI) for aortic stenosis - Edwards Sapien approach (I.P.) Please note different reimbursement rates for Allegra TAVI - see Code 935133 Operative ablation/incision and/or reconstruction of atria for treatment of atrial fibrillation or flutter (e.g. maze procedure) Mediastinoscopy and biopsy Operative ablation of atrial fibrillation, supraventricular arrhythmogenic focus or pathway (e.g. Wolff-Parkinson-White, atrioventricular node re-entry), tract(s) and/ or focus (foci) with or without cardiopulmonary bypass Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; without cardiopulmonary bypass Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, coronary reconstruction, with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, coronary reconstruction, with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, coronary reconstruction, with cardiopulmonary bypass	5077	Insertion, replacement or repositioning of permanent transvenous electrode(s) only; dual chamber
Mediastinoscopy, without biopsy (I.P.) Ascending aorta graft, with cardiopulmonary bypass, with aortic root replacement and coronary reconstruction Transverse arch graft, with cardiopulmonary bypass Descending thoracic aorta graft, open or endovascular, with or without bypass, with or without coverage of left subclavian artery origin, plus descending thoracic aortic origin extension(s), if required to level of coeliac origin Repair of thoracoabdominal aortic aneurysm with graft, with or without cardiopulmonary bypass Transcatheter Aortic Valve Implantation (TAVI) for aortic stenosis - Edwards Sapien approach (I.P.) Please note different reimbursement rates for Allegra TAVI - see Code 935133 Operative ablation/incision and/or reconstruction of atria for treatment of atrial fibrillation or flutter (e.g. maze procedure) Mediastinoscopy and biopsy Operative ablation of atrial fibrillation, supraventricular arrhythmogenic focus or pathway (e.g. Wolff-Parkinson-White, atrioventricular node re-entry), tract(s) and/ or focus (foci) with or without cardiopulmonary bypass Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; without cardiopulmonary bypass Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, coronary reconstruction, with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, coronary reconstruction, with cardiopulmonary bypass Percutaneous trans-septal mitral valvuloplasty (I.P.) Valvuloplasty (other than mitral valvuloplasty)	5109	
Ascending aorta graft, with cardiopulmonary bypass Transverse arch graft, with cardiopulmonary bypass Descending thoracic aorta graft, open or endovascular, with or without bypass, with or without coverage of left subclavian artery origin, plus descending thoracic aortic origin extension(s), if required to level of coeliac origin Repair of thoracoabdominal aortic aneurysm with graft, with or without cardiopulmonary bypass Transcatheter Aortic Valve Implantation (TAVI) for aortic stenosis - Edwards Sapien approach (I.P.) Please note different reimbursement rates for Allegra TAVI - see Code 935133 Operative ablation/incision and/or reconstruction of atria for treatment of atrial fibrillation or flutter (e.g. maze procedure) Mediastinoscopy and biopsy Operative ablation of atrial fibrillation, supraventricular arrhythmogenic focus or pathway (e.g. Wolff-Parkinson-White, atrioventricular node re-entry), tract(s) and/or focus (foci) with or without cardiopulmonary bypass Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; without cardiopulmonary bypass Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, coronary reconstruction, with cardiopulmonary bypass Percutaneous trans-septal mitral valvuloplasty (I.P.) Valvuloplasty (other than mitral valvuloplasty)	5120	Excision of mediastinal tumour, includes robotic approach
Transverse arch graft, with cardiopulmonary bypass Descending thoracic aorta graft, open or endovascular, with or without bypass, with or without coverage of left subclavian artery origin, plus descending thoracic aortic origin extension(s), if required to level of coeliac origin Repair of thoracoabdominal aortic aneurysm with graft, with or without cardiopulmonary bypass Transcatheter Aortic Valve Implantation (TAVI) for aortic stenosis - Edwards Sapien approach (I.P.) Please note different reimbursement rates for Allegra TAVI - see Code 935133 Operative ablation/incision and/or reconstruction of atria for treatment of atrial fibrillation or flutter (e.g. maze procedure) Mediastinoscopy and biopsy Operative ablation of atrial fibrillation, supraventricular arrhythmogenic focus or pathway (e.g. Wolff-Parkinson-White, atrioventricular node re-entry), tract(s) and/or focus (foci) with or without cardiopulmonary bypass Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; without cardiopulmonary bypass Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, coronary reconstruction, with cardiopulmonary bypass Percutaneous trans-septal mitral valvuloplasty (I.P.) Valvuloplasty (other than mitral valvuloplasty)	5124	Mediastinoscopy, without biopsy (I.P.)
Descending thoracic aorta graft, open or endovascular, with or without bypass, with or without coverage of left subclavian artery origin, plus descending thoracic aortic origin extension(s), if required to level of coeliac origin Repair of thoracoabdominal aortic aneurysm with graft, with or without cardiopulmonary bypass Transcatheter Aortic Valve Implantation (TAVI) for aortic stenosis - Edwards Sapien approach (I.P.) Please note different reimbursement rates for Allegra TAVI - see Code 935133 Operative ablation/incision and/or reconstruction of atria for treatment of atrial fibrillation or flutter (e.g. maze procedure) Mediastinoscopy and biopsy Operative ablation of atrial fibrillation, supraventricular arrhythmogenic focus or pathway (e.g. Wolff-Parkinson-White, atrioventricular node re-entry), tract(s) and/ or focus (foci) with or without cardiopulmonary bypass Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; without cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, coronary reconstruction, with cardiopulmonary bypass Percutaneous trans-septal mitral valvuloplasty (I.P.) Valvuloplasty (other than mitral valvuloplasty)	5125	Ascending aorta graft, with cardiopulmonary bypass, with aortic root replacement and coronary reconstruction
thoracic aortic origin extension(s), if required to level of coeliac origin Repair of thoracoabdominal aortic aneurysm with graft, with or without cardiopulmonary bypass Transcatheter Aortic Valve Implantation (TAVI) for aortic stenosis - Edwards Sapien approach (I.P.) Please note different reimbursement rates for Allegra TAVI - see Code 935133 Operative ablation/incision and/or reconstruction of atria for treatment of atrial fibrillation or flutter (e.g. maze procedure) Mediastinoscopy and biopsy Operative ablation of atrial fibrillation, supraventricular arrhythmogenic focus or pathway (e.g. Wolff-Parkinson-White, atrioventricular node re-entry), tract(s) and/or focus (foci) with or without cardiopulmonary bypass Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, coronary reconstruction, with cardiopulmonary bypass Percutaneous trans-septal mitral valvuloplasty (I.P.) Valvuloplasty (other than mitral valvuloplasty)	5126	Transverse arch graft, with cardiopulmonary bypass
Transcatheter Aortic Valve Implantation (TAVI) for aortic stenosis - Edwards Sapien approach (I.P.) Please note different reimbursement rates for Allegra TAVI - see Code 935133 Operative ablation/incision and/or reconstruction of atria for treatment of atrial fibrillation or flutter (e.g. maze procedure) Mediastinoscopy and biopsy Operative ablation of atrial fibrillation, supraventricular arrhythmogenic focus or pathway (e.g. Wolff-Parkinson-White, atrioventricular node re-entry), tract(s) and/or focus (foci) with or without cardiopulmonary bypass Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; without cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, coronary reconstruction, with cardiopulmonary bypass Percutaneous trans-septal mitral valvuloplasty (I.P.) Valvuloplasty (other than mitral valvuloplasty)	5127	
TAVI - see Code 935133 Operative ablation/incision and/or reconstruction of atria for treatment of atrial fibrillation or flutter (e.g. maze procedure) Mediastinoscopy and biopsy Operative ablation of atrial fibrillation, supraventricular arrhythmogenic focus or pathway (e.g. Wolff-Parkinson-White, atrioventricular node re-entry), tract(s) and/ or focus (foci) with or without cardiopulmonary bypass Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; with cardiopulmonary bypass Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, coronary reconstruction, with cardiopulmonary bypass Percutaneous trans-septal mitral valvuloplasty (I.P.) Valvuloplasty (other than mitral valvuloplasty)	5128	Repair of thoracoabdominal aortic aneurysm with graft, with or without cardiopulmonary bypass
Mediastinoscopy and biopsy Operative ablation of atrial fibrillation, supraventricular arrhythmogenic focus or pathway (e.g. Wolff-Parkinson-White, atrioventricular node re-entry), tract(s) and/ or focus (foci) with or without cardiopulmonary bypass Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; without cardiopulmonary bypass Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, coronary reconstruction, with cardiopulmonary bypass Percutaneous trans-septal mitral valvuloplasty (I.P.) Valvuloplasty (other than mitral valvuloplasty)	5133	
Operative ablation of atrial fibrillation, supraventricular arrhythmogenic focus or pathway (e.g. Wolff-Parkinson-White, atrioventricular node re-entry), tract(s) and/ or focus (foci) with or without cardiopulmonary bypass Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; without cardiopulmonary bypass Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, coronary reconstruction, with cardiopulmonary bypass Percutaneous trans-septal mitral valvuloplasty (I.P.) Valvuloplasty (other than mitral valvuloplasty)	5134	Operative ablation/incision and/or reconstruction of atria for treatment of atrial fibrillation or flutter (e.g. maze procedure)
tract(s) and/ or focus (foci) with or without cardiopulmonary bypass Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; without cardiopulmonary bypass Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, coronary reconstruction, with cardiopulmonary bypass Percutaneous trans-septal mitral valvuloplasty (I.P.) Valvuloplasty (other than mitral valvuloplasty)	5135	Mediastinoscopy and biopsy
Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, coronary reconstruction, with cardiopulmonary bypass Percutaneous trans-septal mitral valvuloplasty (I.P.) Valvuloplasty (other than mitral valvuloplasty)	5138	Operative ablation of atrial fibrillation, supraventricular arrhythmogenic focus or pathway (e.g. Wolff-Parkinson-White, atrioventricular node re-entry), tract(s) and/or focus (foci) with or without cardiopulmonary bypass
Ascending aorta graft, with or without valve suspension, with cardiopulmonary bypass Ascending aorta graft, with or without valve suspension, coronary reconstruction, with cardiopulmonary bypass Percutaneous trans-septal mitral valvuloplasty (I.P.) Valvuloplasty (other than mitral valvuloplasty)	5143	Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; without cardiopulmonary bypass
Ascending aorta graft, with or without valve suspension, coronary reconstruction, with cardiopulmonary bypass Percutaneous trans-septal mitral valvuloplasty (I.P.) Valvuloplasty (other than mitral valvuloplasty)	5144	Repair of hypoplastic or interrupted aortic arch using autogenous or prosthetic material; with cardiopulmonary bypass
Percutaneous trans-septal mitral valvuloplasty (I.P.) Valvuloplasty (other than mitral valvuloplasty)	5146	Ascending aorta graft, with or without valve suspension, with cardiopulmonary bypass
Valvuloplasty (other than mitral valvuloplasty)	5147	Ascending aorta graft, with or without valve suspension, coronary reconstruction, with cardiopulmonary bypass
	5151	Percutaneous trans-septal mitral valvuloplasty (I.P.)
	5152	Valvuloplasty (other than mitral valvuloplasty)
Coronary artery bypass grafts using venous graft(s) and/or arterial graft(s)	5158	Coronary artery bypass grafts using venous graft(s) and/or arterial graft(s)
Revision coronary artery bypass grafts using venous graft(s) and/or arterial grafts	5168	Revision coronary artery bypass grafts using venous graft(s) and/ or arterial grafts
Thoracoscopy with intrapleural procedure (I.P.)	5265	Thoracoscopy with intrapleural procedure (I.P.)
Exploration of mediastinum	5801	Exploration of mediastinum
Endoscopic extirpation of lesion of mediastinum	5802	Endoscopic extirpation of lesion of mediastinum
Correction of Tetralogy of Fallot	5809	Correction of Tetralogy of Fallot

Code	Procedure
5811	Atrial inversion for transposition of great vessels
5812	Other correction of transposition of great vessels
5813	Correction of total anomalous pulmonary venous connection
5814	Closure of defect of atrioventricular septum using dual prosthetic patches
5816	Closure of defect of interatrial septum
5817	Closure of defect of interventricular septum
5818	Planned repair of post infarction ventricular septal defect
5819	Emergency repair of post infarction ventricular septal defect
5821	Other open operations on the septum of the heart
5822	Creation of valved cardiac conduit
5823	Creation of other cardiac conduit
5824	Refashioning of atrium (Ebstein's)
5826	Operations on wall of atrium
5827	Excision of cardiac tumour
5829	Replacement of mitral valve, includes valvuloplasty
5832	Replacement of aortic valve, includes valvuloplasty
5833	Replacement of tricuspid valve, includes valvuloplasty
5834	Replacement of pulmonary valve, includes valvuloplasty/ valvotomy
5839	Double valves
5842	Triple valves
5852	Correction of anomalous coronary arteries
5855	Annuloplasty
5870	Myocardial aneurysmectomy
5871	Open correction of patent ductus arteriosus
5872	Excision of pericardium (I.P.)
5882	Closed correction of patent ductus arteriosus
5893	Open operations on pulmonary artery
5909	Excision of chest wall tumour including ribs
5912	Correction of pectus deformity of chest wall
5913	Reconstruction of chest wall
5914	Exploratory thoracotomy
5918	Plication of paralysed diaphragm
5920	Reconstruction of trachea
5941	Total pneumonectomy

Code	Procedure
5942	Lobectomy of lung, including excision of segment
5943	Thoracoscopic lung resections, includes robotic approach
5946	Decortication of pleura or lung, open or thorascopic
5948	Removal of lung, with circumferential resection of segment of bronchus followed by broncho-bronchial anastomosis (sleeve lobectomy)
5949	Pleaurectomy for Pneumothorax, VATS, open or robotic approach
5957	Revision repair of coarctation of aorta
5958	Revision closure of defect of intra ventricular septum
5959	Revision of valve surgery
5982	Total pneumonectomy with lymphadenectomy
5983	Lobectomy of lung, including excision of segment with lymphadenectomy
323424	Percutaneous transcatheter mitral valve repair (leaflet coaptation), including fluoroscopy, angiography, transseptal puncture and echocardiography (TOE), including suturing together the anterior and posterior mitral valve leaflets.
R5120	Excision of mediastinal tumour (Da Vinci robotically assisted)
R5863	Thymectomy (Da Vinci robotically assisted)
R5941	Total pneumonectomy (Da Vinci robotically assisted)
R5942	Lobectomy of lung (including excision of segment) (Da Vinci robotically assisted)
R5943	Thoracoscopic lung resections (Da Vinci robotically assisted)
R5944	Open excision of lesion of lung (Da Vinci robotically assisted)
R5982	Total pneumonectomy with Lymphadenectomy (Da Vinci robotically assisted)
R5983	Lobectomy of lung (including excision of segment) with lymphadenectomy (Da Vinci robotically assisted)
5139	Operative ablation of atrial fibrillation, ventricular arrhythmogenic focus with cardiopulmonary bypass

This list is subject to change and some procedures may have clinical indications, conditions of payment and/or payment indicators attached to them. Please call us on 01 562 5100 to confirm if a procedure is covered or subject to an excess or a co-payment on your plan before going to hospital.
