

This list is subject to change and some procedures may have clinical indications, conditions of payment and/or payment indicators attached to them. Please call us on 1890 717 717 to confirm if a procedure is covered or subject to an excess or a co-payment on your plan before going to hospital.

Code	Procedure
5053	Subcutaneous implantation of a patient-activated cardiac event loop recorder with memory, activator and programmer, including electronic analysis of implantable loop recorder system (ILR), (includes retrieval of recorded and stored ECG data)
5058	Cardiac catheterisation and coronary angiography with or without ventriculography with fractional flow reserve (FFR) intracoronary pressure measurements
5076	Insertion, replacement or repositioning of permanent transvenous electrode(s) only (15 days or more after initial insertion); single chamber
5077	Insertion, replacement or repositioning of permanent transvenous electrode(s) only (15 days or more after initial insertion); dual chamber
5078	Cardiac catheterisation (left, right or both sides)
5080/ 5090	Cardiac catheterisation (left, right or both sides) (I.P.)
5101	Coronary angioplasty, single or multiple vessel(s), with or without angiography with or without pacing
5119	Percutaneous transcatheter closure of congenital ventricular septal defect with implant including right heart catheterisation
5502	Comprehensive electrophysiologic evaluation with right atrial pacing and recording, right ventricular pacing and recording, HIS bundle recording, including insertion and repositioning of multiple electrode catheters.
5103	Transcatheter placement of intracoronary stent(s) (other than drug eluting stents), percutaneous, with or without other therapeutic intervention, with or without angiography, any method, single vessel
5111	Transcatheter placement of intracoronary stents (other than drug eluting stents), percutaneous, with or without other therapeutic intervention, with or without angiography, any method, more than one vessel
5116	Transcatheter placement of drug eluting stent(s), percutaneous, with or without other therapeutic intervention, with or without angiography, any method, single vessel
5117	Transcatheter placement of drug eluting stents, percutaneous, with or without other therapeutic intervention, with or without angiography, any method, more than one vessel
5069	Insertion of automatic implantable cardioverter/ defibrillator, single, dual or biventricular
5071	Insertion or replacement of permanent pacemaker with transvenous electrode(s); single chamber
5072	Insertion or replacement of permanent pacemaker with transvenous electrode(s); dual chamber
5073	Insertion or replacement of pacemaker pulse generator only; single chamber atrial or ventricular
5074	Insertion or replacement of pacemaker pulse generator only (includes defibrillator pulse generator); dual chamber
5960	Intracardiac catheter ablation of atrioventricular node function, atrioventricular conduction for creation of complete heart block, with or without temporary pacemaker placement
5961	Intracardiac catheter ablation of arrhythmogenic focus for treatment of supraventricular or ventricular tachycardia by ablation of fast or slow atrioventricular pathways, accessory atrioventricular connections or other atrial foci, (including foci pulmonary vein) single or in combination
5942	Lobectomy of lung (including excision of segment)
